Sean Boushie Searches his name, he clicks on Sean Boushie as a tag, he emails me a blank email from his personal University of Montana Email from the Same IP Address.

The University of Montana must have NO POLICY for Paying Employees to Read Blogs ALL day on their Dime.

Is this Post "Defamation" - NO it is NOT.. It is Fact, many say that I can't know that Sean Boushie is the one that reads my blog all day from the University of Montana, however, I Say I know For Sure and that it is a Fact. There is No Doubt About. I have around 1000 posts on this blog alone, I watch stats and have for years to try and improve my websites, my blogs... I know

peoples patterns and NO ONE would be interested all day everyday in search for terms such as "Sean Boushie" "Paul Stramer" "sandptcl" and a few other keywords that are ONLY unique to ONE person, and Could not randomly be anyone else.. it just can't be.

l

So not defamation, fact, pages and pages of Stats and Facts.. and many can say I don't know for sure, many can say whatever they like but I stand in Truth, and I do not believe that Lincoln County Montana can stop the Truth on a Blog. Many of you should start your own blog, tell your truth, tell your news.. get heard. You have that Right and One Man telling the Courts he is afraid of my blog postings is Not Enough to Legally shut down this site that in No Way Threatens this One Man, though he had his own blog to Bash Me and to Bash Paul Stramer.

Having never had a conversation with Paul Stramer until the One Man started Attacking, I would venture to say that NO ONE I have Ever Known would Ever Bash the Two of Us on the Same Blog, in the Same Letter or in the Same Protective Order..

r

Defamation.. NO WAY...
