Stalking is a form of mental assault, in which the perpetrator repeatedly, unwantedly, and disruptively breaks into the life-world of the victim, with whom he has no relationship (or no longer has). The separated acts that make up the intrusion may not always by themselves cause the mental abuse, but do taken together (cumulative effect).

Internet technology has enabled online groups of anonymous people like this to self-organize to target individuals with online defamation, threats of violence, and technology-based attacks.

In this case, there seem to be some "professional" stalkers at work. According to online posts, the American Mothers Political Party (a hate group) teamed up several years ago with a group of "Joeys" who operate a hate website at <http://joeyisalittlekid.blogspot.com>.

They have published lies, doctored photographs, threatened violence, posted sensitive personal information, e-mailed damaging statements to many people, and are manipulating search engines to make damaging material about me more prominent.

I fear for my safety and the safety of my family. I am in fear of bodily harm to myself and my family, violent injury to my property, and more.

On February 25, 2013, I filed my second criminal complaint. This named at least 37 people and entities. Included were online aliases such as Ginger Snap, Petunia Pigg, and others.

My complaint is for stalking, harassment, harassing communications, threats (including death threats or veiled threats of bodily harm by four people).

There is absolutely no question that these people have followed me online and contacted me online for the purpose of harassing and intimidating me. They have attempted to terrify, threaten, harass, annoy, and offend me with lewd and profane language, lewd and lascivious acts, threats to inflict physical harm, and more.

Virtually all of the stalking and harassment has been cyberstalking, the use of the Internet and email to stalk and harass me and those acquainted with me.

The stalking includes the making of false accusations and false statements. These include that I am a pedophile, a pedophile lover, anti-gay, bigoted, a tax evader, a criminal operating a scam, and much more.

The stalking includes monitoring, as the stalkers claim to be tracking my Internet activity. Some stalkers participate in my online radio talk shows to monitor and/or to disrupt the calls and the online chat. The monitoring includes repeated online posts of libelous, threatening, harassing statements.

I fear identity theft as they say they have my social security number.

Many of these perpetrators spend a lot of time gathering information that may be used to harass.

The stalking is apparently motivated by a desire to control me and interfere with my activities. Their sole goal is to damage me and my charitable efforts.

The initial cyberstalker was a person who I do not believe I know. He was joined by people I do know and many more who I wouldn't know from Adam. These stalkers have solicited involvement of other people online who do not even know me.

The libel and slander is truly unbelievable. These stalkers invent one false claim after another. People who I don't know make statements in writing that have no truth whatsoever and can be easily proven to be false. It's like they feel they can say anything and get away with it.

The stalkers have repeatedly violated my privacy rights and copyright by using photos and videos of me that they have no legal right to use. Photographs of me have been doctored. Absolutely sickening videos have been produced about me. The worst is one that has one scene after another of feces – big piles of shit in various settings – and it's all attacking me.

They have created fake blogs about me containing defamatory content.

Internet technology has enabled online groups of anonymous people like this to self-organize to target individuals with online defamation, threats of violence, and technology-based attacks. They have published lies, doctored photographs, threatened violence, posted sensitive personal information, e-mailed damaging statements to many people, and are manipulating search engines to make damaging material about me more prominent.

It would take a team of people full-time to capture all the stalking and slander. I have 882 megabytes of evidence, but it is a fraction of what is out there.

Any reasonable person in possession of this information would regard it as sufficient to cause another reasonable person distress.

I have massive civil charges that I intend to bring against these folks.

I say to all of the people cybertalking me, slandering me, libeling me, defaming me, etc., CEASE AND DESIST. I consider your actions to be both criminal and civil violations, and I intend to file criminal charges against each of you. I also plan to file a civil action against each of you. And you will be featured in one of two new movies, Slanderella or Slanderfella.
