Sean Boushie

Cyberstalker Sean Boushie posts on Bill Windsor's site using the fictional CrystalCox VictimsGroup as his identity.

Sean Boushie tells Bill Windsor to bite him, falsely claims he and others have spoken to a federal judge about Windsor, falsely claims I look at porn in the basement, falsely claims I am going to be taken to a mental institution, falsely claims I screw myself, and calls me an asshole.

Sean Boushie sends emails and posts messages such as this while being paid by the University of Montana. Perhaps the University of Montana should change its name to Cyberstalker U.
