**Mary Deneen** Montana? I wouldn't file anything or enter the courtroom without an 'independent' comprehensive psych evaluation and attorneys.

**Julia Fletcher** When life gives us lemons... this is an opportunity to tell all the people in the courtroom and all media outlets available to listen that the case filed against you is within the context of the process of exposing judicial corruption in every state ... which actually makes it suspect that the case was even accepted by a court. **Mary Gunn** He better appear or there will be a warrant for his arrest. This attorney has a website that might be able to help you Bill. Just google F.E.A.R. and her information will pop up. She also has a phone number and you might be able to talk to her

**Red Riding Hood** OMG - No psych evaluations! They are part of the problem! Few of them are honest and if they discredit you with a psych evaluation, then you can forget about saving anything. I'm serious. Stay away from the witch doctors. : /
