Identity Theft of "Crystal Cox" used for stalking and harassment on Bill Windsor's Facebook Page

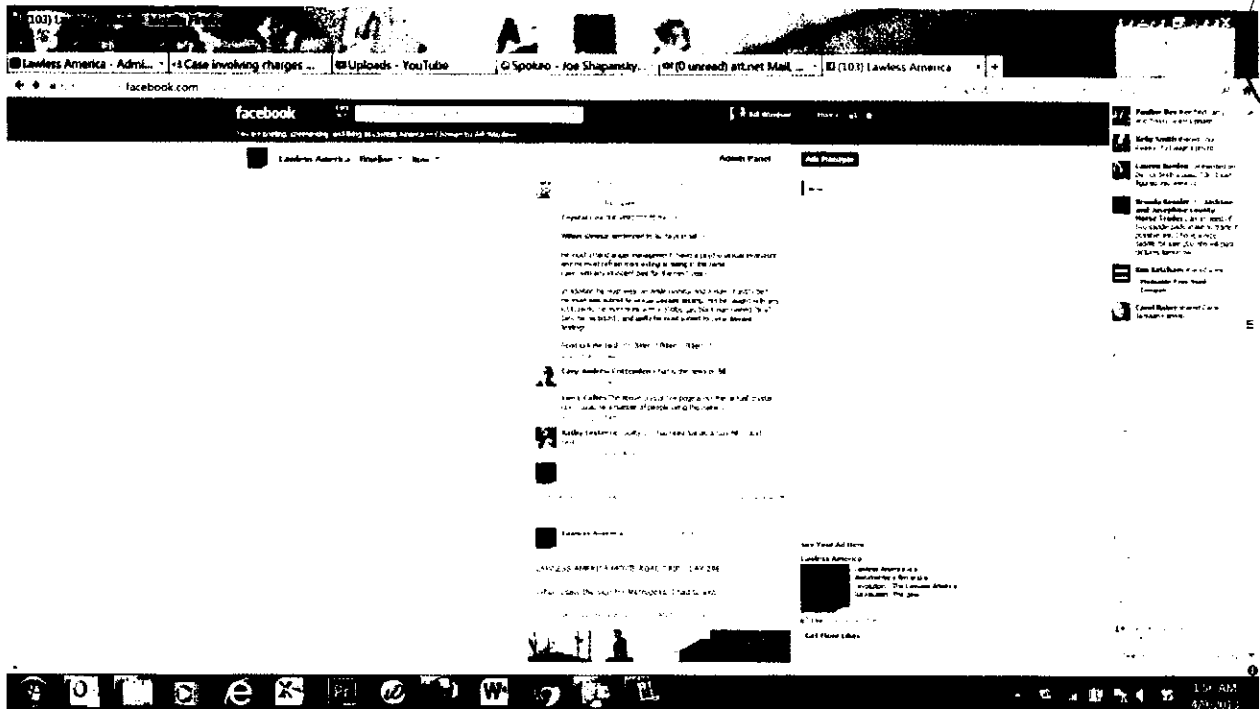

Identity Theft of "Crystal Cox" used for stalking and harassment on Bill Windsor's Facebook Page.

Everything in this post that appeared on one of my Facebook pages is false. And this is NOT a post by the real Crystal Cox.

Sean Boushie of the University of Montana has regularly used Crystal Cox as a stolen identity. I question whether this post was by Sean Boushie because the spelling, grammar, and sentence structure are much better than Sean Boushie normally manages.
