 As this asshole plus a course of stalking and harassment, as a  
 name of Russian is better as to which one will not have the patience  
 to create his stalking and feels and his reign of terror. I know I can  
 not, and I will not allow him to take photos of my home, or my place  
 of employment, or my favorite place to dine.

 Why does he do this? Well, besides the obvious fact that he is crazy  
 and suffers from some serious mental disease such as bipolar disorder  
 and schizophrenia and others. I believe he gets some fun  
 paying sexual satisfaction over his domination of power he feels he has  
 over these women.

 What a kind a shame that in your's decision, reactio suggests like  
 the excess fat asshole Billy "Bour" cartoon are allowed to roam free  
 outside the walls of a mental institution, which is where he currently  
 should reside. Instead the city, cities coward is allowed to roam the  
 streets while stalking and harassing innocent and, what appear to him,  
 weaker women who he can intimidate and harass. Why damn he do  
 this?
